WD-82840 Shown  
Cabinet Color: Platinum Black | Accent: High Gloss Black

## A FULLY, IMMERSIVE, LARGE SCREEN 3D EXPERIENCE

With picture performance that outpaces today's smaller flat panels, Mitsubishi 3D DLP Home Cinema TVs offer a larger than life, intensely vivid 2D and fully immersive 3D viewing experience. In huge screen sizes ranging from 73" to 92", Mitsubishi Diamond 840 TVs deliver incredible picture performance at an exceptional value, and completely define the large screen 3D entertainment category.

3D is an immersive large screen experience. All 2011 Mitsubishi 3D DLP Home Cinema TVs utilize the same core DLP technology that power the vast majority of 3D Cinemas. DLP technology is up to 1,000 times faster than LCD, providing a sharper and more realistic 3D TV experience in the home.

## BACKPANEL

\*TV and some PC displays have standard overscan. Features, specifications and dimensions are subject to change without notice. Physical appearance of television and matching base may vary slightly from images shown in this document.

Mitsubishi 3D TVs will support the mandatory HDMI 1.4a 3D signals and a few optional 3D signals intended for the United States. Specifically, the TVs will support 3D signals known as Frame Packing 1080p @ 24Hz and 720p @ 60Hz (primarily from Blu-ray players and gaming consoles), Side-by-side in 1080i @ 60Hz, 1080p @ 24Hz, 30Hz, 60Hz and 720p @ 60Hz, Top/Bottom in 1080p @ 24Hz and 720p @ 60Hz and Checkerboard in 1080p @ 60Hz. However, there may be some 3D sources that are not compatible with Mitsubishi TVs. In all cases: (1) 3D sources must connect to the TVs using HDMI inputs; and (2) Active Shutter 3D glasses with their own external matching synchronization emitter connected to the rear of the TV, DLP Link Active Shutter 3D glasses which do not require a synchronization emitter, or Active Shutter glasses compatible with the internal IR emitter in some TV models are required to view 3D content. External synchronization emitters must be compatible with VESA Stereo connector standards. Please refer to our web site [www.mitsubishi-tv.com](http://www.mitsubishi-tv.com) for the most current information.

Mitsubishi does not design, manufacture or sell matching bases for the 82" or 92" DLP TVs (models WD-82740, WD-82840 and WD-92840). When selecting a stand, base, or other furniture to support the TV, please make sure it is designed with the appropriate dimensions for stability and to support the TVs weight plus the weight of any additional equipment you plan to store. If you are having trouble connecting your TV or accessing StreamTV internet media services contact Mitsubishi Customer Relations at 1-800-332-2119. If you are having difficulty with your VUDU account, contact VUDU Customer Care at [www.vudu.com/support](http://www.vudu.com/support).
